2	l		Provide all relevant documents and information regarding environmental conditions including information related to soil, sediment, water (ground and surface), and air quality, including, but not limited to:	see i-iv responses	see i-iv responses	see i-iv responses	see i-iv responses	see i-iv responses	see i-iv responses	see i-iv responses	see i-iv responses	see i-iv responses	see i-iv responses	see i-iv responses
2	l	i	Any spill, leak, release, or discharge of waste, useful product, hazardous substance, pollutant, or contaminant at, from, or near the property, or to the Lower Duwamish Waterway. If Respondent has any knowledge of such occurrences at the property, identify each occurrence, the date(s) of the occurrence, and provide a short narrative description of the occurrence. If not, Respondent shall provide a statement that it has no information or knowledge of any such occurrences at the property;	No knowledge of any such occurrence.	No knowledge of any such occurrence.	No knowledge of any such occurrence.	No knowledge of any such occurrence.	No knowledge of any such occurrence.	No knowledge of any such occurrence.	No knowledge of any such occurrence.	No knowledge of any such occurrence.	No knowledge of any such occurrence.	No knowledge of any such occurrence.	No knowledge of any such occurrence.
2	l	ii	Occurrences of violations, citations, deficiencies, and/or accidents concerning the property. If Respondent has any knowledge of such occurrences at the property, identify each occurrence, the date(s) of the occurrence, and provide a short narrative description of the occurrence. If not, Respondent shall provide a statement that it has no information or knowledge of any such occurrences at the property;	No knowledge of any such occurrence.	No knowledge of any such occurrence.	No knowledge of any such occurrence.	No knowledge of any such occurrence.	No knowledge of any such occurrence.	No knowledge of any such occurrence.	No knowledge of any such occurrence.	No knowledge of any such occurrence.	No knowledge of any such occurrence.	No knowledge of any such occurrence.	No knowledge of any such occurrence.
2	l	iii	Remediation or removal of contaminated soils, sediments, or other media from, at, near the property, or from the adjacent area of the Lower Duwamish Waterway. If Respondent has any knowledge of such activities at the property, identify each activity, the date(s) or the activity, and provide a short narrative description of the activity. If not, Respondent shall provide a statement that it has no information or knowledge of any such activities at the property; and	No knowledge of any such activity	No knowledge of any such activity	No knowledge of any such activity	No knowledge of any such activity	No knowledge of any such activity	No knowledge of any such activity	No knowledge of any such activity	No knowledge of any such activity	No knowledge of any such activity	No knowledge of any such activity	No knowledge of any such activity
2	l	iv	Investigations, inspections, sampling, and reports generated by Respondent and/or others regarding the property and surrounding area. If Respondent has any knowledge of such activities at the property, identify each activity, the date(s) or each activity, and provide a short narrative description of the activity. If not, Respondent shall provide a statement that it has no information or knowledge of any such activities at the property.	See KC-Parks-004 (environmental site assessment) & -011 (environmental data resources radius map)	See KC-Parks-015 (environmental site assessment) & -016 (environmental data resources radius map)	See KC-Parks-045 through -051; -054; -058; -069; -073; -084	See information under "Cecil Moses Park - General"	See information under "Cecil Moses Park - General"	See information under "Cecil Moses Park - General"	See information under "Cecil Moses Park - General"	See information under "Cecil Moses Park - General"	See information under "Cecil Moses Park - General"	See KC-Parks-096, -097; -112	N/A
2	m		Provide a detailed description and all documentation of the events leading to and the outcome of all enforcement actions, litigation, and settlements regarding environmental conditions at the property.	N/A	N/A	N/A	N/A	N/A	N/A	N/A	N/A	N/A	N/A	N/A
2	n		Provide a description of property drainage and stormwater flow and/or conveyance, including any changes to drainage, flow, and/or conveyance which occurred during the Relevant Time Period. Include a description of, and any plans or maps containing information about, storm drainage which includes but is not limited to any systems, above or below surface piping, ditches, catch basins, manholes, collection points, roof drains, bioswales, and treatment/detention or related structures including outfalls. Also include dates of construction and operation of any structures or systems and information about connections to systems managed by Respondent or any other entities including but not limited to sanitary sewers, storm drain lines, and combined sewers.	Hamm Creek flows through site, from south to north. Property slopes steeply down toward the creek. In north portion of parcel, creek is located near western parcel boundary; the south portion of the parcel includes land on both east and west of creek.	Hamm Creek flows through site, from south to north. Property slopes steeply down toward the creek. In north portion of parcel, creek is located near western parcel boundary; the south portion of the parcel includes land on both east and west of creek.	Property is adjacent to Duwamish River, located along the eastern edge of the property.	See information under "Cecil Moses Park - General"	See information under "Cecil Moses Park - General"	See information under "Cecil Moses Park - General"	See information under "Cecil Moses Park - General"	See information under "Cecil Moses Park - General"	See information under "Cecil Moses Park - General"	Property is adjacent to Duwamish River.	Property is fairly flat, in portion of South Park bounded by SR 509 to west and West Marginal Way to east. Apparently there was a daylighting project to daylight portion of Hamm Creek on site. All files were transferred to City of Seattle Parks.
2	o		Provide copies of any stormwater or drainage studies prepared for the property and data from any sampling and infiltration and inflow studies conducted at the property. Also provide copies of any Stormwater Pollution Prevention, Maintenance Plans, Spill Plans, discharge monitoring reports, and any stormwater, process water, process wastewater, or any other discharge permits that may have been developed or obtained for different operations during the Relevant Time Period.
